

85% White Goose Down Duvet Inner by Herington

Warm and Welcoming! You will love slipping into bed on a cold night to be greeted by the luxurious warmth of comfort of this 85% White Goose Down Duvet Inner by Herington. White Goose Down is known for its incredible natural insulation properties and lush softness. This Herington Duvet inner is filled with at least 85% minimum white goose down to provide you with the ultimate in luxury and warmth. This wonderfully cosy Duvet Inner is filled with low allergen Excel Down, a specially enhanced down fibre that helps promote good health, superior comfort support and temperature control. Why choose down bedding? Down gives approximately three times the warmth than synthetics. Less down is needed by weight than other fillings, which means a much lighter, but warmer product. The down is then encased in a silky smooth cover of high quality, piped and gusseted cotton rich with a baffled cassette style construction for the perfect loft Weight : 275 gsm. TOG Warmth rating: 12.3 TOG is the measurement of the thermal insulation of quilt warmth. This product has been tested to precise international standards. Available in : Queen - 210 x 210 cm King - 245 x 210 cm NZ Super King - 265 x 210 cm 5 years warranty. Approved by Sensitive Choice Program of the Asthma and Respiratory Foundation of NZ. Care Instructions: Launder at own risk. Follow care guide instructions. Duvet Innners larger than a Double are considered a large bulky item. These items may require a commercial washing machine for laundering as it may exceed the capabilities of your domestic use washing machine.
