It is also flame retardant making it a great choice for your family. What is Tencel? Sensational Tencel® is unique new fibre that is 100% organic, made from natural wood cellulose originating from sustainable eucalyptus forestry plantations. Tencel® is supple, durable and flexible and has an incredibly silky smooth surface that has a cooling sensation on the skin. The eucalyptus fibre is like cotton in loft and weight, however it does absorb, dissipate, and evaporate 50% more moisture than natural cotton! Bacteria and dust mites live and breed in moisture, so with proper washing care and a dust free bedroom, Tencel® offers the perfect hypoallergenic and antibacterial solution. Care Instructions: Launder at own risk. Follow care guide instructions. Duvet Inners larger than a Double are considered a large bulky item. These items may require a commercial washing machine for laundering as it may exceed the capabilities of your domestic use washing machine.
