

Marumi 58mm DHG Lens Protection Filter

Preserve your camera lens and enhance the quality of your captured photos with Marumi's 58mm DHG Lens Protect Filter. It is enriched with a high-grade coating, maximising the performance of your lens. Key Features Take better photos as the Marumi 58mm DHG Lens Protect Filter reduces flares, ghostings, and optimises the output of lenses for digital imaging. This DHG filter is specially created for digital cameras and is made with top-notch digital coating. It is composed of a thin frame, so photos produced with the wide-angle lens are crisp, clear, and true-to-life.
