

Manfrotto Compact Monopod

An ideal companion for entry-level photographers, Manfrotto Compact Monopod, is extraordinarily lightweight and portable. It supports cameras that weigh 1.5 kg or less. It is compact yet sturdy, making it easy to carry around during shoots and won't take up too much of your bag space. Key Features Ergonomic Design: Giving you the extensive support for shooting striking pictures, it is crafted with ergonomic soft grip and wrist strap that ensures a safe hold and avoids dropping your camera. Portability: You can easily take Manfrotto Compact Monopod with you anywhere thanks to its compact, lightweight, and highly portable form. Compatibility: It also boasts the universal $\frac{1}{4}$ screw thread and allows you to use it with your Compact System Cameras and entry-level DSLRs.
