

Panasonic HC-V180 Camcorder

Capture the sights and special moments with your friends and family in steady and clear full HD with the Panasonic HC-V180 Full HD Camcorder. While you discover the sites or enjoy time with family, your footage is steady and clear thanks to 5-axis hand-shake detection. It's essential at the high zoom range and to counteract camera-shake. The handy 28mm Wide-Angle setting also give you impressive landscapes and group photos. Key Features 90x Intelligent/50x Optical Zoom: Easily capture distant objects that are too far away to shoot with conventional zoom functions - thanks to 90x Intelligent Zoom. You can also use the 50x Optical Zoom to zoom in on your subject to add more emotion and dynamics to your homemade footage. Level Footage at all times: So you can film carefree, the Level Shot function automatically detects and corrects the tilting of images. The setting can be adjusted to one of three levels - OFF, Normal or Strong - for the shooting condition. Clear, Blurless Results: HYBRID O.I.S.+ uses five-axis correction to thoroughly suppress blurring caused by unwanted shake - whether you are shooting with a wide angle or at high zoom. This lets you capture crisp, clear images in virtually every shooting situation. 28mm Wide-Angle: Get group shots with ease. Fit more people and more of the background into the frame - the 28mm Wide-Angle function (35mm camera equivalent) makes it possible. This is especially handy when you want to take a group shot in a small room. It fits objects in even when you shoot from up close, and makes it possible to pick up even small sounds with the camcorder's built-in microphone. BSI Sensor: The camcorder's advanced BSI Sensor captures brilliant, high-quality images in both bright and dim lighting conditions. That means you can record beautiful scenes and objects under a variety of

conditions and in any situation, including indoor scenes and nightscapes, with low noise distortion.

Features

All Product Details

Brand	Panasonic
Product Type	Video Cameras
Model	V180

Camera Features

Screen Type	Wide LCD Monitor
Screen Size	2.7"
Sensor Type	1/5.8-inch BSI MOS Sensor
MegaPixels	2.51MP
Video Quality	Full HD
Lens Range	28mm wide-angle
Optical Zoom	50x
Enhanced Zoom	90x
Stabilisation	HYBRID O.I.S.+ with Active Mode, O.I.S. Lock, Level Shot Function
Shutter Speed	Motion Image: Auto Slow Shutter ON : 1/25 – 1/8000 Motion Image: Auto Slow Shutter OFF : 1/50 – 1/8000 Still Image: 1/2 - 1/2000
Media Type	SD/SDHC/SDXC Memory Card
Battery Type	Rechargeable 1940mAh Battery

Connections

Connections	AV Output miniHDMI
USB	1 x USB 2.0

Dimensions

Product Width	5.3cm
Product Depth	11.6cm
Product Height	5.9cm
Product Weight	211g

Warranty

Manufacturers 12 Months
