

Instax Mini LiPlay - White

Designed to help you print your photos in an instant, this Mini LiPlay features a printing speed of up to 12-seconds. It also comes with a Sound feature which enables you to add recorded sound to your photo by converting it into a QR code. The Instax Mini LiPlay supports Bluetooth connectivity, allowing you to connect and print from your smartphone easily. Key Features

Design: The Instax Mini LiPlay features an elegant design that easily complements your outfits. It also comes with a compact build, making it ideal for on-the-go use.

Smart: With a download of the Instax Mini LiPlay app on your smartphone, this Mini LiPlay lets you enjoy different features like Select & Print, Sound, and Remote Image Capture. You can also easily decorate your photos and add fun frames and filters to it.

Speedy Print: Made fast and convenient, this Instax LiPlay is capable of printing photos in just 12 seconds. It can also produce up to 100 prints in only a single charge.

Storage and Download Features: Get extended access to your server storage for up to two years. Even after the storage period is over, you can still enjoy your captured images and sounds as you can now download them straight to your smartphone. Easy to navigate, tap download on the WEB, launch app to download automatically, and see your Prints with sound via LiPlayapp or photos app.

Edit Mode: Unleash your creativity as you can sketch and print thanks to the Edit mode. It allows you to crop handwritten characters and drawings. The colours and angles of selected objects can be modified and put on your images.

Direct Access: With its updated firmware, X-A7 models can print via Mini Link without needing other applications. *All of the digital cameras created by FUJIFILM have already been able to connect to the app "Instax mini Link" via "Camera Remote". **The images with sounds uploaded before updating the app can not be downloaded.

Features

All Product Details
