

Belkin 2.0 USB-A to USB-A Extension Cable - 1.8m

Expand your connection to your USB cabled devices with the Belkin 2.0 USB-A to USB-A Extension Cable 1.8m. This handy extender lets you connect your laptop, computer, and other devices to your printer or hard drive from a suitable distance. Key Features Simple and Easy Connection: It features plug-and-play connectivity that lets you connect this VGA adapter without the need of downloading any software and drivers. Fast Transmissions: It has a speed of up to 480Mbps, letting you transfer data and files faster than other extension cables. Durable: It is designed to withstand your daily wear and tear thanks to its hard-wearing construction. Cable Length: It has up to 1.8 metres of cable that helps extend connectivity from one device to another.
