

Belkin DuraTek USB- C to USB-A Cable 3M – White

Not your ordinary charging cable, this Belkin DuraTek USB-C to USB-A Cable is made from high-quality materials. With Aramid fibres built into the cables that provide structure and keeps the wires inside safe. Since it incorporates a double braiding pattern and highly flexible insulation, it reduces friction and allows the cord to bend while protecting the circuits inside. Key Features Premium Materials: Belkin DuraTek has an aluminium circuit board casing and is equipped with aramid fibre to strengthen cables and enhance protection. Flexible: Made with Thermoplastic Elastomer (TPE) cable jacket, it flexes longer than other cables, absorbing pressure and support in the junctures between the wire and the connector. Designed to Last: It is incorporated with double-braided nylon to reduce fraying and make it last longer than most cables. Strap: It comes with a strap that avoids tangling and coiling of the cable. Compatibility: This Belkin DuraTek USB-C to USB-A cable is compatible with various USB-C devices such as the Galaxy S10+, Galaxy S10, Google Pixel 3, LG G7, iPad Pro (12.9") 2nd Gen, and Huawei P20/P20 Pro.
