

# Belkin 4 Outlet Surge Protection Strip with 2 USB Charging Port - 2 metres

The Belkin 4 Outlet Surge Protection Strip with 2 USB Charging Port makes a great addition to your home and office set-up for charging up your laptop, DVD, speakers, and more. This charging port features a damage-resistant housing that protects the circuits inside and three-line AC protection. It keeps your plugged-in devices safe from a sudden power outage.

**Key Features** Belkin 4 Outlet Surge is designed from high-quality materials and robust housing that safeguard the circuits inside from fire, rust, and impact. It has a built-in power switch that lets you turn off this charging port when not in use; while it includes a Not-Grounded Indicator that alerts you when electronics are not properly plugged-in. Featuring two 2.4 AMP integrated USB ports and four power outlets that allow you to quickly charge your electronics and smart devices faster than other brands while protecting them from damage and data loss. It has a Surge Protection Strip that can handle up to 525 joules, keeping your home and office electronics safe from unexpected lightning strikes, surges, and voltage fluctuations. Its heavy-duty 2-metre power cord lets you power up your electronics from a distance while making sure to give optimal power flow to each plugged-in device. Belkin 4 Outlet Surge Protection Strip with 2 USB Charging Port has a Connected Equipment Warranty that repairs or

replaces your connected electronics that were damaged by this charging port.
