

Logitech M557 Bluetooth Mouse

Do not let cables and length restrictions bother you again with the Logitech Bluetooth Mouse M557. This Bluetooth mouse works with almost any device, including most Bluetooth-enabled PC, Mac or Windows 8 tablets. The long battery life and customisable usage options further makes this Logitech Bluetooth mouse reliable and efficient to use. Key Features This Logitech Bluetooth Mouse works with most Bluetooth enabled computers, laptops and tablets. Enjoy the convenience of exceptional battery life as the Logitech Bluetooth Mouse M557 lasts up to a full year without the need to recharge. Control your Bluetooth mouse with the customisable buttons, which offer you one-touch access to your favourite folders, files and destinations, like the Windows® 8 Desktop and Start Screen.
