

Norton 360 Premium 3 Devices - 1 Year

Safeguard your computer from daily threats with Norton 360 Premium. It has everything you need to provide overall protection for your device from spyware, malware, and other online threats. It also boosts your PC performance, and back-ups and restores your data. It is a stellar innovation for convenient PC protection.

Key Features Norton Internet Security: Norton 360 has continuous protection against viruses, spyware, Trojan horses, botnets, and cyber-threats. **Two-Way Firewall:** Enhanced with a penetrating firewall that guards you against hackers and assures you that your personal data and files will stay on your computer if it has your consent. **Anti-Phishing:** You can shop online or access your bank accounts online without worrying thanks to its anti-phishing feature that makes sure there are no attempts to steal your confidential information. **Norton™ Identity Safe:** Your sensitive information such as passwords and credit card numbers are secured in a vault and naturally fills in when needed by a trusted website so that you will be safe from keylogger programs. **Parental Control:** Hardwired parental controls let you filter internet contents and control the use of the internet anytime. **PC Tuneup Feature:** To let your device stay in shape, Norton 360 automatically generates diagnostic reports to find and fix common problems that make your computer's performance slower. **Automatic Data Back-Up and Restore:** Your important files can be backed up by downloading it to your Norton Online account, and you can access and share them efficiently via email. **Subscription:** This Norton 360 Premium can be utilised by three devices for 1 year.
