

# Philips Hue White Single E27 Light Bulb

Add a Philips Hue White Single E27 Light Bulb to your system and enhance your home with warm white lighting that you can dim and control remotely. Philips Hue is your personal wireless lighting system that lets you easily control your light and create the right ambiance for every moment. You can bring your home to life with the most connected light in the world. Key Features Smart: With the Philips Hue iOS and Android apps you can control your lights remotely wherever you are. You can check to see if you have forgotten to switch your lights off or switch them on if you are working late. Convenience: Philips Hue can make it seem like you're home when you're not, using the schedule function in the Philips Hue app. You can set the lights to turn on before you get home, set rooms to light up at different times, or set the lights to turn off gradually in the night - so you never have to worry if you've left any lights on. Control: Connect your Philips Hue lights to your smartphone or tablet and discover endless possibilities. Control your lights from your smartphone or tablet via the Philips Hue app, or add switches to your system to activate your lights. Set timers, notifications, alarms, and more for the full Philips Hue experience. Wireless: This LED bulb is wirelessly controllable if you connect it to the Philips Hue bridge for smart control or to the Philips Hue dimmer switch.

## Features
