

# AOC Agon 31.5" AG322FCX LED Monitor

Immerse yourself in a world where everything is that much cooler with the AOC Agon 31.5" AG322FCX LED Monitor. The AG322FCX AMD FreeSync Full HD monitor enhances the experience with a 31.5" Curved VA panel and several optimisation tools. 144Hz refresh rate and the Free-Sync technology keeps the experience untainted by stutter, lag, or motion blur. Key Features Curved Panel: The human eye, curved as it is, has a limited viewing angle. Curved displays are better suited to presenting on-screen content more naturally for the human eye, thereby reducing eye fatigue. Shadow Control: With AOC Shadow Control gamers can dial-in shadow levels in the OSD Menu to increase contrast for better dark areas on the screen definition without affecting the rest of the screen. Low Blue Light Technology: Low Blue Light software, featured in all AGON displays, reduces harmful blue light emission (wavelengths under 455nm) found in most monitors. This ensures your eyes stay protected, especially over longer gaming sessions. Flicker Free Technology: Most LED monitors use PWM (pulse width modulation) to control brightness this pulsing creates flicker that may cause discomfort, headaches and eye strain, especially in low-light environments. Flicker Free technology uses a smooth DC (direct current) backlight system to prevent unwanted side effects..

## Features

All Product Details

**Brand** AOC  
**Product Type** Monitors

Screen

**Screen Size** 31.5"  
**Screen Type** Full HD LED  
**Screen Resolution** 1920 x 1080  
**Screen Aspect Ratio** 16:9  
**Refresh Rate** 144Hz

Connections

**Connections** D-sub  
Display port  
DVI-D Port  
HDMI  
Headset Jack

Dimensions

**Product Width** 72.1cm  
**Product Depth** 24.3cm  
**Product Height** 53.0cm  
**Product Weight** 9kg

Warranty

**Manufacturers** 36 Months
