

# Netgear Orbi RBK50 AC3000 Tri- band Wi-Fi System

Meet Orbi - Fast, Secure, Whole Home WiFi. Orbi is the World's First Tri-band WiFi System. From your front yard to your home office to your pool, Orbi gives you reliable, secure, and crazy fast WiFi to every inch of your home. Key Features WiFi everywhere: No more dead zones upstairs, no dropped connections through walls, just WiFi everywhere. The Orbi Home WiFi System reaches up to 4,000 square feet through WiFi barriers like walls, stairs and doors. Need more coverage? Just add an Orbi Satellite to instantly expand your WiFi reach. Finally, mesh done right: Orbi can grow as you need it with seamless connectivity between devices and Orbi units. Orbi's Tri-band WiFi System allows your devices to move between bands and other Orbi units without needing to reconnect. Every inch of your home will be covered in a blazing fast network giving you Better WiFi, everywhere. Is Orbi a range extender?: No! Range Extenders create multiple WiFi networks to expand your coverage. That means you need to reconnect based on where you are in your home. Orbi creates a single high speed network that gives your entire home complete coverage. Orbi dynamically optimizes your connections for you without having to reconnect. Don't wait on buffering: Buffering shouldn't be a part of family movie night. Orbi helps prevent buffering and lag by creating a high speed Internet superhighway for all of your devices. The Orbi Tri-band WiFi System works with your current ISP's modem to maximize the speed you are paying for. Quick and easy setup: Unlike some WiFi systems, Orbi

works with your Internet service provider right out of the box. You won't need to change your current equipment to use the Orbi WiFi Home System. Orbi uses a single WiFi name (SSID) and with just a couple of clicks, your secure WiFi network will be ready in no time. Circle App: Circle is a smart way for families to manage content and time online, on any connected device. Managed by the easy-to-use Circle app, families can create unique profiles for each family member and easily set time limits for apps and websites, individual filter levels for family members, BedTime for each family member, pause internet by device or user, and manage your family's mobile devices across all networks and much more... \* \* Some features require Circle Premium Subscription - sold separately.

## Features

### All Product Details

<b>Brand</b>	Netgear
<b>Product Type</b>	Mesh Networking

### Memory

<b>Ram</b>	512MB
------------	-------

### Storage Capacity

<b>Capacity</b>	4 GB
<b>Type</b>	Flash Storage

### Connections

<b>Connections</b>	4x Gigabit Network Port
	LAN
	WAN
<b>USB</b>	1 x USB 2.0
<b>Wireless Ready</b>	IEEE 802.11b/g/n 2.4GHz & IEEE 802.11a/n/ac 5GHz

#### Dimensions

<b>Product Width</b>	16.94cm
<b>Product Depth</b>	5.99cm
<b>Product Height</b>	22.58cm
<b>Product Weight</b>	889g each

#### Warranty

<b>Manufacturers</b>	24 Months
----------------------	-----------
