powerful than ever, Microsoft Surface Pro 7 features a powerful Intel Core processor, improved battery and graphics, and more multitasking connections. \* Some software and accessories sold separately. 1. Battery life Surface Pro 7: Up to 10.5 hours of battery life based on typical Surface device usage. Testing conducted by Microsoft in September 2019 using preproduction software and preproduction Intel® Core™ i5, 256GB, 8 GB RAM device. Testing consisted of full battery discharge with a mixture of active use and modern standby. The active use portion consists of (1) a web browsing test accessing 8 popular websites over multiple open tabs, (2) a productivity test utilizing Microsoft Word, PowerPoint, Excel and Outlook, and (3) a portion of time with the device in use with idle applications. All settings were default except screen brightness was set to 150nits with Auto-Brightness disabled. Wi-Fi was connected to a network. Battery life varies significantly with settings, usage and other factors. 2. Surface Pro 7 for consumers comes with Windows 10 Home to bring you the powerful Windows features you use most at an exceptional value.
