

Beurer BF 700 Diagnostic Scale

The Beurer BF 700 Diagnostic Scale boasts an easy-to-read screen display, slim stainless-steel structure, and innovative network to connect with your smartphone. This digital scale delivers a comprehensive reading, letting you keep track and take charge of your ideal measurement, whether at home, office or on the go. Key Features Beurer lets you keep track of your family's fitness measurements without any hassle thanks to its automatic user recognition that can accommodate up to eight users. Keep track of your fitness progress and wellbeing with the BF 700 Diagnostic Scale. This scale instantly reads your body analysis, muscle ratio, bone mass, Active Metabolic Rate (AMR)/Basal Metabolic Rate (BMR), and your Body Mass Index (BMI). Its large black LCD screen and white illuminated digits make it easier to read your measurements. It also has quick-start, automatic switch-off technology, and an overload indicator to alert if you have exceeded the scale's maximum capacity. Send automatic data results of your measurements from the digital scale to your smart device via Bluetooth connection by downloading the BeurerHealthManager app.
