

Logitech Extreme 3D PRO Joystick

Play like a pro with the Logitech Extreme 3D PRO Joystick. Constructed with Twist Rudder Control, 8-way Hat Switch, and 12 programmable buttons, this Extreme Joystick helps you easily nail the game. It also comes with a sculpted curve build which provides total comfort while playing. Key Features Easily customise your Extreme PRO Joystick, thanks to its 12 programmable buttons. These buttons enable you to assign commands and macros. This Extreme 3D PRO Joystick enables you to take control of the game as it is engineered with a Precision Twist Rudder Control. To help you easily navigate the game, this Logitech Joystick is integrated with an 8-way Hat Switch which enables you to easily change from weapons to the point of view and more. The Logitech Extreme 3D PRO Joystick is designed with sculpted curves which supports your hand and keeps you comfortable throughout the game. Built with a stable and heavy base, this Extreme PRO Joystick lets you play fluidly without worrying that your joystick will slide here and there.
