

# Logitech Powerplay Wireless Charging System

Combining Powerplay and Lightspeed technology, Logitech G has reinvented high performance wireless gaming with the Logitech Powerplay Wireless Charging System. Input lag, wireless disconnects, and dead batteries are now a thing of the past. Welcome to the future of wireless PC gaming, achieved through advanced science and unrivaled engineering. Key Features Powerplay Technology: Through innovative application of electromagnetic resonance, the Powerplay base creates an energy field above its surface. This allows charging of the mouse while in motion and delivers wireless power seamlessly while gaming. Powercore Module: The Powerplay energy field is transformed into charging current by the Powercore module, which attaches magnetically to compatible wireless gaming mice. The beauty of Powerplay is that your mouse will charge while you're at play and at rest. Cloth and Hard gaming mouse pad: Tune you performance to your mouse pad of choice. We include both our cloth and hard surfaces so you can customise and swap interchangeably. Powerplay will suit you right out of the box. Customisable RGB lighting: Your G lights up in Brilliant RGB colour. Use Logitech gaming software and set your software and set your lighting with up to 16.8 million colours. You can even synchronise colour and lighting effects with Logitech G gaming mice, keyboards and headsets for a unified look and feel. Built-in Wireless: We designed Powerplay with a built-in Lightspeed wireless receiver, so your gaming mouse can pair directly with the Powerplay base. This

eliminates the need for an additional USB data receiver  
Compatible: Can be used with Logitech G903 and G703  
wireless gaming mice \*Mouse not included

## Features

### All Product Details

**Brand** Logitech  
**Product Type** Mouse Pads

### Connections

**USB** 1 x USB

### Software and System Requirements

**Operating System** Windows 10, Windows 8.1,  
Windows 8, Windows 7

### Dimensions

**Product Width** 34.4cm  
**Product Depth** 4.3cm  
**Product Length** 32.1cm  
**Product Weight** 1.6kg

### Warranty

**Manufacturers** 24 Months
