

Sphero Mini App-Enabled Robotic Ball - White

Equipped with live sensors, a customisable exterior, and other fun-filled educational features, this Sphero Mini App-Enabled Robotic Ball is a perfect entry-level robot for beginners. This programmable robot is provided with almost an hour of playtime and has a ping pong sized structure that can easily fit in your pockets. Key Features Learn to code or play STEM games on your smartphone through the Sphero Play app and Sphero Edu app (download required). Enjoy manoeuvring this Sphero Mini ball in any direction using its four-drive mode – Face Drive, Tilt, Slingshot, Joystick. You can also use this mini ball as a controller when playing games on your paired device. Thanks to its Bluetooth functionality, you can easily play with the Sphero Mini Ball at up to 10-metres range. It also features LED lights, gyroscope, and accelerometer sensors that allow you to navigate this robotic ball in any direction. This Sphero Mini Robotic Ball has an interchangeable casing which lets you switch it into other colourful shells (sold separately) to suit your mood or style. Included in the box are the Sphero Mini Ball, Micro USB charging cable, 3x Mini Traffic Cones, and 6x Mini Bowling Pins. Sphero Mini app is compatible to use with iOS 10+ and Android 5.0+. It is also available to download through Google Play, App Store, and Amazon Appstore.
