

Jabra Elite 7 Active Noise Cancelling True Wireless In-Ear Headphones - Black

With its heavy-duty body and innovative audio engineering, the Jabra Elite 7 Active Noise Cancelling True Wireless In-Ear Headphones makes the perfect choice for your everyday workouts. It features Jabra ShakeGrip which prevents the buds from falling out even when you're running, walking or repping. To accommodate your listening needs, it also offers reliable ANC and HearThrough technologies. Furthermore, this pair of headphones boasts a powerful battery that can last for up to 8 hours. Key Features

- Exceptional Sound: Fitted with custom 6mm speakers, the Jabra Elite 7 produces crisp and powerful audio for different types of media, including songs, audiobooks, and podcasts.
- Immersive Listening: Its Active Noise Cancellation feature lets you keep out the unwanted noise so you can stay focused on your content.
- Hear your Surroundings: By simply tapping the HearThrough button, you'll be able to instantly hear the ambient sounds and be aware of what's happening around you.
- Crystal-clear Conversations: Confidently take calls wherever you are. The integrated internal and external microphones are encased with SAATI Acoustex mesh which effectively minimises wind noise.
- Companion App: With a download of the Jabra Sound+ app, you'll have the ability to access multiple settings to

personalise your listening experience. It features MySound, an intuitive equaliser, and five-level controls for noise cancellation and HearThrough. Convenient Features: The Jabra Headphones works with Alexa and Google Assistant, enabling you to quickly get help while you're on the go. In addition, it has a Mono mode that allows you to independently use either earbud. Durable Build: Whether you're indoors or outdoors, the Elite 7 has always got you covered! It flaunts an IP57 rating to ensure that it can reliably withstand water and sweat. Comfortable Listening: Thanks to its lightweight body and EarGel design, you can enjoy your favourite tunes in total comfort. It also incorporates ShakeGrip material that securely stays in place even as you move. Powerful Battery: It is equipped with a long-lasting battery that can accompany you for up to 8 hours. It also supports fast charging, giving you one hour of power in just five minutes of charging. Charging Case: When the battery runs out, you can easily slip your headphones into its handy case to extend battery life for up to 30 hours. Wireless Connection: This pair of headphones is equipped with Bluetooth 5.2, letting you seamlessly connect it to up to 8 compatible devices.
