

Samsung Galaxy Buds Pro Wireless Noise Cancelling In- Ear Headphones - Phantom Silver

Escape reality as you listen to your favourite tunes with the Samsung Galaxy Buds Pro Wireless Noise Cancelling In-Ear Headphones. For an immersive sound experience, it is backed up with active noise cancelling level, 2-way speakers, and a 360-degree audio function. It also comes with a high functional 3-mic system that helps deliver crisp, clear audio during calls. Key Features Unmatched Connectivity: The Samsung Galaxy Buds Pro features Bluetooth v5.0 technology that offers a long wireless range with minimal latency. You can also tune in with others that have another set of Galaxy Buds Pro by connecting them to your smartphone simultaneously. Crisp, Clear Voice: Galaxy Buds Pro packs various microphone functions such as a dual-mic array, high SNR mic, and an inner mic to deliver you a crisp, clear voice quality during calls. 360 Audio: With Dolby Head Tracking technology, these earbuds make use of its intelligent motion-tracking sensor for a more powerful realistic listening experience. Waterproof Structure: Thanks to its

IPX7 Water-Resistant design, you never have to worry about getting the Galaxy Buds Pro wet. It can accompany you through sweaty workout sessions or rigorous everyday routines. Tap Controls: For added convenience, you can manage calls, voice commands, and more by simply tapping the Galaxy buds' on-ear controls. Designed for Comfort: With their wireless functionality, these buds let you move around seamlessly without any cable restriction. You can also pick your preferred ear-tip size from its included customisable ear-tips for a more snug and secure fit. ANC Feature: The intelligent ANC on the Galaxy Buds Pro is backed up by UL Verification and has proven to filter out up to 99% of external background noise. It also lets you control it to a level that fits your current surroundings for a more surround sound experience. ANC is activated by default but can be configured via the touch and hold gesture in the Galaxy Wearable app. Ambient Sound: With Ambient Sound, you won't have to take out your earbuds during discussions for it instantly lowers your music down so you can hear voices in full clarity. Smart Technology: Thanks to this earbuds' Voice Detect feature, it can instantly switch from ANC to Ambient mode whenever it hears you speak. It uses an AI algorithm to recognise the user's voice and responds to vibration-induced situations (conversations may not be detected when only one earbud is worn). Voice Detect is turned on by default but can be switched on or off by simply tapping on one of the earbuds. Immersive Sound: It comes with custom-built 2-way speakers with sound by AKG, allowing you to experience a beautiful and immersive sound experience. Convenience: Using its Auto Switch feature, it lets you instantly switch from one device to another. The buds also enable you to listen to music on your tablet and answer calls from your phone with one tap*. Playtime: Get immersed longer as these Galaxy Buds Pro give you up to 18-hours** of run time (5-hours of listening time plus 13-hours more in the case). When ANC is off, it can last for up to 28-hours*** (8-hours and extra 20-hours in the case). You can also have an extra hour of playtime after a 5-minute quick charge. Compatibility: The Galaxy Buds Pro is compatible with smartphones and tablets running on Android 7.0 or later. *Auto Switch feature only available on Galaxy smartphones and tablets with OneUI 3.1 or later. Certain devices and applications may not support Auto Switch. Galaxy devices must be

logged in to Samsung Account to enable Auto Switch. ** Earbuds and case provide up to 18 hours of battery life when the case is charged to 100%. Based on internal testing. Audio playback time tested by pairing a pre-production Galaxy Buds Pro to a recently released Galaxy smartphone with default settings including ANC on. Actual battery life and charging time may vary by usage conditions, number of times charged and many other factors. *** Earbuds and case provide up to 28 hours of battery life when the case is charged to 100%. Based on internal testing. Audio playback time tested by pairing a pre-production Galaxy Buds Pro to a recently released Galaxy smartphone with default settings except ANC and Ambient mode off. Actual battery life and charging time may vary by usage conditions, number of times charged and many other factors.
