

Sunbeam Mini Barista Espresso Coffee Machine

The Sunbeam Mini Barista Espresso Machine has a powerful Italian pump and a steam wand, making it easy for you to craft your very own artisanal coffee at the comfort of your home. Sleek and stylish, it exhibits a visually-appealing statement when placed on your kitchen bench or countertop. 58mm Group Head Pre-Ground Coffee 2L Water Tank Thermoblock Heating System 15 Bar Pump Pressure Water Regulation Featuring Thermoblock technology and a PID controller, the Sunbeam Mini Barista Espresso Machine can quickly heat up and maintain the ideal water temperature needed for the coffee extraction process. Optimum Pump Pressure This espresso machine's 15-bar Italian pump produces optimal pressure levels when extracting coffee solids, oils, and aroma to give you rich-tasting results with a crema top. It also has an auto-shot volumetric control, so you can serve the proper amount of coffee that you want every time. Inspired by Café Machines With a 58mm commercial-size group head, the Sunbeam barista machine can accommodate a large volume of coffee grinds that are evenly spread out to produce a balanced, flavourful extraction. The Milky Way The Sunbeam Mini Barista Coffee and Espresso Machine has a built-in steam wand which creates a dry steam, helping you make lattes, cappuccinos, and flat whites with a smooth and velvety milk texture. What's In The Box? 1x Sunbeam Mini Barista Espresso Machine 1x 58mm Group Handle 2x Dual Wall Filters 1x 350ml SS Milk Jug 1x Cleaning Pin 1x Commercial Style Tamper
