

Mitsubishi Electric EcoCore AP42 Heat Pump / Air Conditioner

For the correct sizing of heat pumps and an installation quote please contact your local Harvey Norman store. The EcoCore AP42 sets a new standard in super energy efficient heating and cooling. With Dual Barrier Coating that prevents dust and dirt build-up on the inner surface, the EcoCore AP42 stays clean year-round; maximising efficiency and home comfort. Whisper Quiet Starting from barely a whisper, the EcoCore AP Series ensures you only feel the warmth, not hear it! Furthermore, the addition of Night Mode means the outdoor operating noise level drops by a further 3dBA – for the perfect night's sleep. Dual Barrier Coating The patented and world's first Dual Barrier Coating from Mitsubishi Electric prevents dust and dirt from accumulating on the inner surface of the indoor unit; keeping your heat pump clean year-round. Keeping key internal components like the heat exchanger, fan and internal duct clean is important for both home comfort and efficiency. Not only does dust and dirt build-up typically create unpleasant odours, it also forces a heat pump to work harder, which can result in significantly impaired energy efficiency. Dual Barrier Coating prevents dust and oil build-up on the interior of the heat pump for the ultimate in peace of mind, ease and comfort. Next Generation R32 EcoCore Technology R32 is a refrigerant with just one-third the global warming potential of R410A and has zero ozone

depletion potential. R32 offers increased energy efficiency, and is said to be the next generation of refrigerants

Built-In Wi-Fi Control For the ultimate in aesthetics and heat pump control no matter where you are, the Black Diamond LN Series comes equipped with a Wi-Fi Interface inside a hidden pocket in the indoor unit.

Night Mode For the perfect night's sleep; dimming the operation indicator light, disabling any beeping from the unit, and lowering the outdoor operating noise level by 3dBA.

Horizontal Airflow The EcoCore AP Series eliminates uncomfortable draughts with horizontal airflow in cooling mode, by first spreading airflow evenly across the ceiling.

Washable Air Purifying Filter The EcoCore AP Series is equipped with an Air Purifying Filter. This washable filter traps particles such as dust, pollen and other airborne contaminants, generating stable antibacterial and deodorising effects. The size of the three-dimensional surface has been increased from previous models, enlarging the filter capture area. These features give the Air Purifying Filter better dust collection performance than conventional filters.

Features

All Product Details

Brand	Mitsubishi
Product Type	Heat Pump/Air Conditioner
Model	MSZ-AP42VGKD
Colour	White

Heat Pump/Air Conditioner Features

Heating Capacity	5.4kW
Cooling Capacity	4.2kW

Energy

Energy Star	Cooling 2.5 - Heating 3
--------------------	-------------------------

Dimensions

Height	550mm
Width	800mm
Depth	219mm
Product Weight	10.5Kg

Warranty

Manufacturers 60 Months
