

Dyson AM09 Air Multiplier Fan/Heater - Black/Nickel

When used as a cooling fan, the Dyson AM09 fan heater has powerful airflow and high air velocity to cool you effectively. It uses Air Multiplier™ technology for long-range heat projection – it provides direct heat throughout the room. There are no visible heating elements or fast-spinning blades, and the unit switches off automatically if tipped over.

Features

All Product Details

Brand	Dyson
Product Type	Heater
Model	302644-01
Colour	Black/Nickel

Dimensions

Height	588mm
Width	204mm
Depth	204mm
Product Weight	2.5kg

Warranty

Manufacturers 24 Months
