

Breville Soft Top Kettle - White

Elegant, efficient and cordless convenience in a fast boiling kettle designed for the modern kitchen. 2400 watt heating element and concealed design make this kettle quick to boil. Soft Top® Lid A bubbling brew presents a few hazards on the way from kettle to cup. Pressing the lid release button will allow the cushion controlled lid to gently open, staggering steam release and reducing any chance of hot water splash back. Dual Water Window Dual sided, high visibility water windows make it easy to make sure you don't heat more water than you need. Auto Shut Off The Soft Top™ will automatically shut itself off when it reaches its boiling point. Cordless Jug for Convenience 360 degree multi directional base with cord storage wrap. Removable Scale Filter The kettle features a removable mesh filter to remove scale deposits for cleaner water.
