

Dyson Big Ball Animal+ Vacuum Cleaner

The Dyson Big Ball Animal + is engineered for powerful complete cleaning around the home. Dyson's most efficient, cyclone technology captures the fine dust and debris that can clog other vacuums. The dust separation is so efficient that unlike conventional vacuum cleaners, there's no need to wash or replace a filter. The Carbon fibre turbine head has stiff nylon bristles that deep-clean carpets & rugs and the carbon fibre filaments help remove fine dust from hard floors. As well as being easy to steer, it gets back up when it has been knocked over! Key Features Hygienically ejects the dirt - Drives out trapped dirt and dust with just the push of a button, so there's no need to touch it. Long wand - Extends up to 1.25m. Articulated handle - Handle rotates allowing 360° articulation for greater control. Bin volume - 1.6L. Cord length - 6.6m. Max cleaning reach - 10.75m. Filtration - Advanced filtration. No filters to wash or replace. Accessories Carbon fibre turbine cleaner head Combination tool Stair tool Swivel hard floor tool Tangle-free turbine tool Carbon fibre soft dusting brush Reach-under tool Quick-release adaptor

Features

All Product Details

Brand	Dyson
Product Type	Bagless Vacuum Cleaner

Model 300280-01

Vacuum Features

Cord Length 6.6m

Dimensions

Height 347mm

Width 399mm

Depth 308mm

Product Weight 7.64kg

Warranty

Manufacturers 24 Months
