

Netgear Powerline 1000 Network Adapter

Enjoy extended wired internet access in your house with Netgear's Powerline 1000 Network Adapter. It is ideal for connecting your Smart TVs, streaming players, and game consoles without using long electrical wires. You just need your existing electrical wiring and outlet to be connected to your network connection. Key Features

Low Energy Consumption: Powerline 1000 will automatically switch off whenever it is not in use, making it an energy-saving addition to your system.

Fast Internet Connectivity: Its speed of up to 1000 Mbps will provide internet access without any network disruptions.

HomePlug® AV2: It is HomePlug AV-compatible that supports Gigabit speeds for better and advanced network coverage.

Easy Installation: There's no need for an application or software configuration, just plug it into any electrical outlet and you can use it right away.

Push-and-Secure Button: It is equipped with a button that allows you to secure your Powerline network connection quickly and easily.

Reliable Network: You can connect multiple adapters to fully expand your internet connection without sacrificing your network's power, speed, and performance.
