

D-Link DWR-921 4G LTE Wi-Fi Router

Let the D-Link DWR-921 4G LTE Wi-Fi Router convert, access, and share your 4G LTE or 3G mobile broadband connection with other smart devices and enjoy uninterrupted connectivity. It allows you to have access to worldwide mobile broadband networks wherever you are in the world, making it a perfect aide for your travels. Key Features Fast Internet Activity: This 4G LTE router will let you enjoy a fast, flexible, and responsive internet experience. You can stream music and videos and surf the web conveniently thanks to its fast downlink speeds of up to 150Mbps and uplink speeds up to 50Mbps. Secured Wired and Wireless Connection: Its dual-active firewalls (SPI and NAT) prevent potential online threats. It has reliable built-in encryptions to keep your network and all the connected devices more safe and secure. You don't need to worry too much about unauthorized and unknown users accessing your system. Easy Installation: You can set this router up without any hassle and operate it quickly in any place where you need a wireless network connection.

Features

All Product Details
