

TP-Link AX3000 Dual Band Wireless Wi-Fi 6 Gigabit Router

The TP-Link Archer AX50 AX3000 Dual Band Gigabit Wi-Fi 6 Router brings you the advantage and benefits of lightning-speed internet, protection from threats and viruses, online privacy, and parental-control features. It is reinforced with Next-Gen Gigabit Wi-Fi 6, which allows you to have connection speeds of up to 2402 Mbps* (on 5GHz) and 574 Mbps (on 2.4 GHz) to ensure smoother streaming and faster downloads. Key Features Fast Internet Activity: Enhanced with Intel Home Wi-Fi WAV654 chipset to access Wi-Fi 6, Archer AX50 AX3000 is the router that lets you enjoy a fast, flexible, and responsive internet experience of up to 3Gbps. The high-speed connectivity will enable you to play all your games, stream music and videos, and surf the web conveniently. Built-in Homecare™ Security System: It is powered by Trend Micro™ to keep all your accounts and system safe and have automatic protection for all the network devices at your home. Rest assured that your essential information and files are safeguarded from malicious threats and viruses at bay online. Expanded Wi-Fi Coverage: With four high-gain external antennas and Beamforming technology, you can now enjoy an improved and extended reliable Wi-Fi throughout your home. Comprehensive Parental Controls: Hardwired parental controls let you create profiles for your children, set schedules and limits on internet access, and block inappropriate content. 4x Greater Connection Capacity: With OFDMA and MU-MIMO technologies, Archer AX50 has a better capacity to connect with up to 256 devices. Easy and Smart

Management: You can set this router up without any hassle and operate it quickly. You can link to your router via Bluetooth with the powerful Tether app. **Voice Control:** It is made compatible to work with Amazon Alexa for command support for added convenience. **Seamless Streaming:** It brings you a more stable and responsive internet connection with reduced latency. **Target Wake Time:** Together with AX technology, your smart devices that support Target Wake Time will prolong battery life** by conferring how often they will wake up to send and receive data. *Maximum wireless signal rates are the physical rates derived from IEEE Standard 802.11 specifications. Range, coverage, and the maximum number of connected devices are based on test results under normal usage conditions. Actual wireless data throughput, wireless coverage, and number of connected devices are not guaranteed and will vary as a result of 1) environmental factors, including building materials, physical objects, and obstacles, 2) network conditions, including local interference, volume, and density of traffic, product location, network complexity, and network overhead, and 3) client limitations, including rated performance, location, connection quality, and client condition. **Saving clients' battery power requires clients to also support the 802.11ax Wi-Fi standard. Actual power reduction may vary as a result of network conditions, client limitations, and environmental factors.

Features

All Product Details

Brand	TP-Link
Product Type	Wi-Fi Router
Model Number	Archer AX50

Dimensions

Product Width	33 cm
Product Depth	24 cm
Product Height	7.3 cm

Product Weight 1 kg

Warranty

Manufacturers 36 Months
