

VS Sassoon Intelligent Digital Hair Dryer

The Digital Sensor Dryer features a digital sensor and digital motor to maximize drying and styling performance, and offer superior air flow and temperature for true hair protection. Key Features : Featuring a smart EC digital motor, the VS Sassoon Digital Sensor Hair Dryer delivers an airflow of up to 208km/h for fast, professional-quality results and offers a motor lifespan of up to 10,000 hours. This digital hair dryer uses high ionic conditioning technology to help reduce frizz and static while retaining much of your hair's natural moisture. With a digital sensor, this hair dryer maintains a consistent temperature of up to 70-degrees Celsius when drying to help eliminate damaging hot spots, providing excellent hair protection for most hair types. The digital hair dryer comes with a diffuser to give your hair natural-looking curls and added volume and 2 concentrator nozzles to straighten or style with precision. To suit your hairstyling needs, the VS Sassoon hair dryer has 2 speed settings and a true cold shot to set your hairstyle in place.
