

Oral-B Professional Care 2000 Electric Toothbrush

The Oral-B Pro 2000 rechargeable electric toothbrush provides a superior gentle cleaning, specially designed for sensitive teeth and gums. While you move the brush around the mouth, Oral-B's unique round head does all the rest. It removes more plaque than a standard manual toothbrush for healthier gums. This Oral-B toothbrush also helps protect delicate gums by reducing brushing speed and alerts you to be gentler if brushing too hard thanks to its Pressure Sensor feature. The Professional Care 2000 toothbrush is the must-have brush for everyone who wants to switch to an electric toothbrush and improve their oral health. Key Features

3D Cleaning Action: Start having healthier gums and stronger teeth as it oscillates, rotates, and pulsates to remove plaque and cavities. **Brushing Modes:** Boasting its Daily Clean and Gum Care modes for a more customised brushing, you can have an all-around cleaning with Oral-B Professional Care 2000. **Battery Life:** Its Lithium-Ion can provide consistently powerful cleaning performance for more than two weeks with one full charge. **Pressure Sensor:** With 8,800 oscillations, it has a Pressure Sensor that protects gums from over-brushing and helps slow the speed. **Handle Timer:** It equips a built-in timer that enables brushing for 2 minutes and buzzes every 30 seconds for a reminder to change the brushing zone. **Includes:** The box comes with the Oral-B Professional Handle, one Cross Action Brush Head, a Charger station, and a travel case.

Features

All Product Details

Brand	Oral-B
Product Type	Electric Toothbrush
Model Number	PRO2000B

Dental & Mouth Care Features

Timer	Yes
Run Time	2 weeks
Pulsations per Minute	40,000
