

Uniden DECT1715+1 Twin Handset Cordless Phone

Packed with lengthy battery life, the Uniden DECT1715+1 Twin Handset Cordless Phone lets you enjoy up to 10 hours of talk time. It is also integrated with duplex speakerphone, allowing you to take handsfree calls. Key Features With its Blackout Power Failure Protection Feature, the DECT 1715+1 Phone effectively supplies power to the base unit when a power failure happens. Integrated with duplex speakerphones, this Uniden Cordless Phone lets you take calls and have handsfree conversations. It also has an Extra Loud Handset Volume Control, ensuring you that you'll hear the sound loud and clear. Designed to complement your home's décor, the DECT1715+1 Twin Handset Phone can be conveniently placed in your wall or desk. This Twin Handset Cordless Phone delivers a long battery life that can last for up to 10 hours of Talk Time and seven days when used in Standby Time. Engineered with Orange Backlit LCD Display and Alpha Display Caller ID, the Uniden DECT1715+1 Phone lets you quickly know who's calling. You can also save up to 70 Phonebook Memories and 30 Caller ID Memories.
