Sporting Bluetooth connectivity with USB Charging Port the XDECT 8315+1 from Uniden now enables you to dial and receive mobile calls on the cordless handset for convenience and versatility as well as charging your Mobile Phone simultaneously. Boasting various intelligent features such as the diversity antenna which eliminates drop outs, WiFi compatibility, improved voice clarity and USB charging port, the XDECT 8315+1 is the perfect correlation between home and smart phone.

Key Features Convenient: When a Power Failure occurs, the charged handset temporarily supplies power to the base unit. You can then make and receive calls using a handset. Call Block PRO: A feature that helps to minimize unwanted phone numbers. The Call Block PRO feature goes further by targeting call center nuisance calls (i.e. Telemarketers) and will block registered numbers that share the first digits of the phone number but with a different extension number. Outstanding: The new Uniden XDECT 83 Series combines the intelligence of Integrated Bluetooth combined with a USB Charging Port feature. Stylish, Slim Design, the XDECT 8315+1 is the perfect marriage between "Smartphone" & "Homephone". Optimal: The USB Charging Port allows you to charge your USB

devices at your convenience - no more looking for that spare power point. Pair up to 4 Mobile Phones to the Uniden XDECT making it ideal in a large household and small business. You can also download your contacts from your smartphone into the 6000 capacity phonebook on the XDECT 8315+1.
