

Surface Bluetooth On- Ear Headphones

Limited stock. Orders can be taken, delays may apply.

Surface Headphones - the smarter way to listen. From your doorstep to your office, on the train or in the air, listen in comfort and style all day. Your music and phone calls sound spectacular with rich, clear audio and adjustable noise cancellation. Key Features Amazing audio : Surround yourself with spectacular sound thanks to a free-edge speaker design and an optimized sonic cavity engineered for richer, clearer acoustics. Comfort and style you'll want to wear all day: From San Francisco to Shanghai listen in comfort and style. Settle in for your commute, your work day, or your flight with comfortably soft, breathable ear cups and lightweight, balanced fit. Easier and more natural to use: Your voice and your fingertips are your controls, so you never have to reach for your device or fumble for a cord. Intuitively twist a dial or tap on-ear sensors to skip a song, answer a call, or turn up the volume. And your Headphones pause automatically when you take them off. Immerse yourself in silence: Adjustable Active Noise Cancellation technology means you choose how much you tune out. Turn up the silence on planes, trains, or when surrounding noise is at its loudest. Turn it down to adjust when you want to be more aware of what's going on around you, like in the office or on city streets. Connect to your world : Pairing to your phone or computer is easy. Listen throughout your day with up to 15 hours *1 of battery life and fast charging for almost an hour of music in just 5 minutes. *1. Up to 15 hours of battery life when connected via Bluetooth with active noise cancellation on. Battery life varies with usage and settings.
