

Belkin 27W USB-C Car Charger with USB-C Cable

The Belkin USB-C Car Charger with USB-C Cable charges your USB-C enabled device quickly and efficiently while you're in your car. The 27W USB-C port charges any USB-C smartphone up to 27W making it 70% faster than regular 5W charging. The USB-C port allows for reversibility of the connector, so you can plug it in any way for the most convenient charging experience. Even better, the sleek, minimalist design matches your car's interior and its small power light lets you know your device is charging.

Key Features

Multi-talented Cable: The sturdy, 4-foot USB-C cable allows you to connect and optimally charge any USB-C device quickly and easily on the road. Perfect for in-car charging, the cable reaches easily from the power source to anywhere in the car, even to passenger seats, or hidden power outlets.

27W Universal Charging: The 27Watt/3 Amp charger connects to any USB-C device through the cable. A USB-PD chipset within the charger automatically detects the connected device, allowing it to deliver optimal charging up to 27 Watts. This means up to 70% faster charging for smartphones/tablets and higher power delivery for larger devices such as Ultrabooks and laptops.

USB-C: All the benefits of USB-C can now be experienced on the move, including the convenient reversible connector, which makes it easy to plug in anytime, anywhere. The C-C cable has a USB-C connector at both ends, so either can be used to connect to the charger and your USB-C device.

USB-C on the road: This USB-C Car Charger and Cable makes it easy to charge your USB-C smartphone or tablet in your car. The 4-foot USB-C to C cable and robust charger offers up to 27W output for charging that's up to

70% faster than standard 5W. What's more, this car charger and cable is universally compatible to work with any USB-C device, including other smartphones, tablets, wearables, and ultrabook computers. Learn more about USB-C
