

Belkin BoostUp Qi Wireless Charging Pad

Wirelessly charge your mobile devices. With the Qi Wireless Charging Pad, you can charge Qi-enabled smartphones without bothering with plugs or cables. This charger uses Qi-certified transmitting coils to deliver charge to your phone wirelessly. Simply place the phone on the charging pad and wait for the LED indicator to light up. Although the charger works wirelessly, it doesn't sacrifice speed. The charger can bring your phone's battery from zero to 100 percent just as quickly as a conventional 5-watt wired adapter. Key Features Compatible: This charging pad can be used with any Qi-enabled smartphone. Portable: With a compact and portable design this charging pad is ideal for on the go, whether you're travelling or need one for work. Design: This stylish charging pad was designed to prevent damage occurring to your phone, with the soft charging pad preventing scratching and slipping. Fast Charge: Qi Certified and this charging pad wireless charges your phone with an output of 5W/1-amp, making sure you can get on your way faster. Learn more about Wireless Charging
