

Cygnett Armoured Lightning to USB-C Cable - 10cm

The Cygnett Armoured Lightning to USB-C Cable is a brilliant creation from Cygnett that is best to use with iOS devices like iPhone, iPad, and AirPods. It incorporates the DuPont Kevlar Core technology in its double braided nylon housing, making it robust and sturdy. It also allows you to charge up your devices at high speed available. Key Features Durable: Fortified with DuPont Kevlar aramid fibre Technology, this cord ensures resistance to chemicals and extreme temperatures. Tough Exterior: The double-braided nylon exterior of this cable protects and prevents damages and deteriorations. Its cable connectors are made from stainless steel, making it aesthetically pleasing while still providing superior resistance from scratches and corrosion. Fast Charging: Power up your Apple devices quickly in minutes thanks to its 18W/29W fast charging. Length: You can charge or connect your device even from a distance with this 10-metre cable. MFI Certified: CygnettArmoured is made for iOS devices. It is suitable to use with most of Apple products such as iPhone 5 and latest models, iPad Air 3rd Gen, iPad 7th Generation, and Apple Airpods.
