

Cygnett Armoured Lightning to USB-C Cable - Black - 1M

Synchronise, charge, and transfer data from one device to another easily with the Cygnett Armoured Lightning to USB-C Cable. Deemed as Cygnett's fastest charging cable, this can charge your iPhone from 0% to up to 50% in 30 minutes time. It is perfect for linking your iPhone to the most recent MacBook models, which currently support USB-C. Key Features Well-matched with the majority of the iPhone models, from units like iPhone 5 to iPhone X, XR, Xs, and Xs Max. Can also be utilised to attach and charge iPad models from the 4th generation to current iPad Pro models. Compatible with any USB-C power banks. Featuring laser-welded metallic alloy connectors. Constructed with double-braided nylon, making it resistant to breakage. Enriched with and metallic internal caging to keep components protected. MFi certified, which means that it meets the performance standards of Apple.
