

Tile Slim Bluetooth Tracker - Single Pack

The Tile Slim Bluetooth Tracker is an easy and hassle free way of keeping track of your devices and items. It is as thin as two credit cards—perfect for wallets, purses, laptops and anything with a slim profile. You can even customize your ring with four preset tunes. Key Features Tracks your stuff: Attach a Tile to an item and locate it by sound when it's close but out of sight. If you still can't find your Tiled item, use the Tile app to see its last known location on a map, or leverage the Tile community to find it for you. Maintenance-free: Tile was designed to run a full year with zero upkeep, no battery replacement, no charging. When it's time for a new Tile, Tile will notify you about their reTile program - an easy way to upgrade your Tiles to the latest technology. Find your phone: When you can't find your phone nearby, press Tile to loudly ring your lost phone—even on silent. You can also log in to our website to see its last known location, make it ring or to send a lock-screen message. The worlds largest lost and found community: Every app updates the location of each Tile device it detects. With more than 6 million Tiles sold and over half a million items found every day, the tile network is the largest, fastest and most powerful lost and found community in the world.
