

# Samsung Galaxy Z Flip3 5G 128GB - Lavender

Stock is heavily constrained during launch phase, delivery of stock will be staggered over a period of time, delays will apply. See store for details. The Galaxy Z Flip3 5G brings superb features, in a sleek, ultra-pocketable and newly robust design. Never miss a detail on the silky-smooth scrolling 120Hz, 6.7" Infinity Flex Display. Change the way you capture with the dual rear cameras and front camera, and use Flex Mode for super stable shots. Then make a splash as one of the world's first water-resistant, foldable smartphones. It's time to flip tech on its head. Key Features A new look everyone will flip for: Stand out with a vibrant palette of colours, beautifully complemented by striking design, and a revolutionary 1.9" Cover Screen. Then unfold the phone for a striking 6.7" Infinity Flex Display. Flex mode frees your hands up: The Galaxy Z Flip3 5G stands all on its own when in Flex mode, meaning you can capture stylish selfies and clips as well as video call, all hands free. Work flexibly across multiple apps: Drag and drop apps across the unfolded or semi-folded display, to multitask across your apps to get more done. Caught in the rain? No sweat: The Z Flip3 5G has an IPX8 water resistance rating, meaning it can handle splashes with ease. 1 You can even unfold safely out in the rain. Change the way you capture: Snap up all the best moments with 12MP Ultra Wide and Wide-angle Rear Cameras, as well as a 10MP Front Camera. No time to unfold? Take selfies with the Rear Cameras, and get a preview from the handy Cover Screen. Pocket sized fun: Fully folded, the phone measures just 107.2mm, allowing it to fit into even the smallest of pockets. The cover screen has you covered: Check

messages, take photos, play music and more, all without opening your phone, via the customisable 1.9" Cover Screen. Hyperfast 5G: Catch up on your favourite shows, content and games, with the almost non-existent latency of 5G download speeds. 2 1 IPX8 certified water resistance for up to 30 minutes in up to 1.5m of water. Rinse thoroughly in fresh water after salt or chlorinated water exposure. Device is not dust resistant. 2 5G services and functionality are dependent upon network provider and are only supported in 5G network enabled locations. Actual speed may vary by country, carrier, data plan, network/user environment, content provider and other factors.
