

LG 7.1.4 Channel Soundbar + Wireless Subwoofer

Discover supreme surround sound with 7.1.4-channel audio, 770W of power, two up-firing rear speakers, and a subwoofer, the LG SP11RA can put the 'awe' into audio entertainment. With Meridian advanced digital signal processing technology to deliver high fidelity sound and a wide sound stage. Created to look good together, the matching designs of LG Sound bars and LG TVs allow them to become a part of your interior and add style to your space. Convenience turned up to the max. Combine an LG Sound bar with LG TVs and use the TV's remote to power on, control the Sound bar's volume, plus adjust the sound modes.
