

Klipsch SPL-100 Subwoofer

PLEASE NOTE THIS PRODUCT IS NOT AVAILABLE IN ALL STORES BUT CAN BE ORDERED Leveraging a 10" spun copper Cerametallic™ woofer and high-efficiency Class-D amplifier, the Klipsch SPL-100 subwoofer delivers best-in-class low frequency output. High Efficiency Class D Amplifier The built-in, high efficiency amplifier features an analog preamp design, which maintains the original signal path for cleaner, true-to-source reproduction. The Class D output stage ensures maximum efficiency for maximum output, detail, and low frequency power. Spun Copper Cerametallic™ Woofers Cerametallic™ woofers are exceptionally light and extremely rigid, providing remarkable low frequency response with minimal cone breakup and distortion for higher, cleaner output using less amplifier power. Woofer Anatomy Klipsch Cerametallic™ cones are matted to a dual-layer, copper-wound voice coil for exceptional conductivity. Reference Premiere woofers are housed in a non-resonating, stamped-steel basket that's secured to a large magnet motor for exceptional efficiency and low distortion, and matched to our horn-loaded tweeters for optimal acoustic execution. Exclusive Port Technology Klipsch SPL subwoofers leverages proprietary internal-flare geometry that minimizes port noise for clean undistorted low frequencies. The front-firing design allows for placement flexibility to reduce unwanted resonance from your walls or furniture behind the subwoofer. Take Control Low Pass Crossover and Variable Phase control allows you to tune the subwoofer to your Klipsch speakers and to your room, establishing the ideal level of bass. Line Level / LFE RCA inputs ensure compatibility with home theater receivers. Both the RCA and wireless inputs can be utilized, giving you the ability to use a single subwoofer with multiple system in the same room. For example, you can use the wireless input for your home theater set up and the

RCA input for your 2-channel system, without needing to switch inputs when changing between systems. Ultra-Durable Design Klipsch SPL subwoofers feature a scratch resistant ebony finish that looks like real wood and covers the entire cabinet. Shock-absorbing rubber feet, steel grille posts and a woven cloth grille give the SPL subwoofers a premium look and feel.

Features

All Product Details

Brand	Klipsch
Product Type	Subwoofers
Model	KL-SPL100

Connections

Connections	RCA Audio Input
--------------------	-----------------

Audio Features

Power Output	200W RMS
Efficiency	114 dB
Frequency Response	27Hz - 125Hz

Dimensions

Height	421mm
Width	356mm
Depth	451mm
Product Weight	16.8kg

Warranty

Manufacturers	36 Months
----------------------	-----------
