

Polk Audio

S55

Floorstanding Speakers

Built to bring the big surround sound theater and music experience into the comfort of your living room, the Polk Signature S50 floorstanding speakers continue in the Polk tradition of American HiFi. Featuring Hi-Res certification, a new Dynamic Balance designed acoustic array, precision cross-overs, an anti-diffraction grille, modern cabinet styling and exclusive Power Port bass enhancing technology, you get elevated sound for movies, TV and music in a totally re-imagined design. Polk—expect great sound. New Dynamic Balance Acoustic Array Whether upgrading your home theater setup with an advanced Atmos configuration or enjoying music, Dynamic Balance ensures a rich, clean, full-range sound no matter what you're listening to. This patented technology eliminates issues that reduce speaker performance. Custom Mid-Range Drivers Mica-reinforced polypropylene cones with butyl rubber surrounds, massive ceramic motor structures and high-temperature Conex fiber spiders combine to create drivers of exceptionally high efficiency, for clean, clear bass, better linearity, lower distortion and greater durability. High-Resolution Audio Performance Our newly designed Terylene dome tweeter delivers clear and detailed high frequency response for realistic reproduction of vocals and instruments. Certified and capable of delivering 40kHz to support the latest high resolution audio files so it feels like your right there in the studio or concert hall. American Modern Styling Curved edges offer a sensual yet powerful look that fits with any home decor—available in a stunning black washed walnut finish. Exclusive Polk Power Port Deep Bass Technology Power Port® is our patented design

that smoothly transitions the air flow from the speaker's port into your listening area. It also extends the overall bass port, providing greater surface area to eliminate turbulence and distortion, for bigger, more musical, deep bass impact. Plus, it offers 3dB more bass response output than a traditional port. Four-Driver Cascading Tapered Crossover Array Gives you a seamless, lifelike soundstage no matter where you're seated in your listening room. There's no more sweet spot—instead, it's all around you. Quality Crafted Cabinet Design Strong, rigid and acoustically inert enclosure reduces unwanted internal standing waves for less audible coloration. And non-resonant Meddite MDF construction, with extra bracing and minimum thick baffles, ensures a more lifelike sound.
