

Monster Coaxial Antenna Cable - 1m

Designed to improve your home video system by providing clearer picture and high quality colours. The Monster Aerial Cable (RG6 Aerial Male-Female + male adaptor) offers true 75 Ohm impedance to ensure that you will always get the best picture quality, regardless of cable length or how much you bend the cable. Optimum Performance With a Ferrite core for superior signal transfer and corrosion resistance, the Monster Aerial Cable can always be relied upon to deliver optimum performance. RFI & EMI Protection The Monster Aerial Cable comes with high-density, braided and foil, double shielding, for maximum rejection of interference (RFI & EMI).
