

# One For All Amplified Indoor Antenna

One For All® take pride in combining functionality and design. When designing antennas their priority is to ensure the best possible reception. Whether you still receive conventional analogue broadcasts or have already made the transition to Terrestrial Digital Video Broadcasts (DVB-T/2) or even Full HD and 3D, you can choose between indoor and outdoor antennas plus stylish indoor specials that blend in with modern home interiors. Which antenna do you need? For best performance, it is recommend to use this antenna within a range of 1 5km from your nearest transmitter. Curved design Following the modern designs patterns of the latest and greatest television sets, we introduce a curved antenna. With it's gloss front and discrete profile, the One For All Curved Antenna is the ideal match for a modern home. 360° adjustable This aerial can be placed in any horizontal positioning for crystal clear reception of DVB-T television and DAB radio signals. HD and DAB ready This Aerial is fully optimised for perfect reception of HD television and DAB+ radio. Interference free This Aerial has a unique 3G/4G block-filter to stop all mobile signals, to ensure the best possible reception, now and in the future.
