

# WilliamsWarn Dry Stout 10L Kit

A true Dry Stout with a compelling personality. Our Dry Stout has a black appearance from the crystal malts, roasted malts and roasted barley employed in the grain mix. The result is a great Dry Stout that has liquorice, roasted coffee and chocolate flavours dominating. The prominent hop bitterness level helps elevate the dryness, which comes from the roasted un-malted barley used. The yeast under the lid is an 11g pack of Fermentis S-04 yeast.

## Features

### All Product Details

<b>Brand</b>	WilliamsWarn
<b>Product Type</b>	Personal Brewing Kit
<b>Model Number</b>	BS0108
