

# WilliamsWarn Dutch Pilsner 10L Kit

This is a noble brew with a crisp finish. The WilliamsWarn Dutch Pilsner is straw-coloured in appearance with a moderate, lingering bitterness. The yeast employed is a classic strain that leaves a slightly estery aroma that is typical of Pilsners from The Netherlands. When used with the light dry malt extract to make an all-malt beer, the combination of ingredients makes a Pilsner very true to the region. The kit includes an 800g can of Dutch Pilsner, 645g bag of Light Dry Malt extract and an 11g pack of Fermentis S-23 lager yeast.

## Features

### All Product Details

<b>Brand</b>	WilliamsWarn
<b>Product Type</b>	Personal Brewing Kit
<b>Model</b>	BS0109
