

# Robinhood 520mm Integrated Powerpack Rangehood

For when your kitchen designer says 'hide it away', an integrated powerpack rangehood is the way to go. This 520mm powerpack hood from Robinhood is built into a 600mm cupboard above your hob and produces up to 850m<sup>3</sup> per hour of air extraction power. Designed to be completely built in a choice of both white and stainless steel faceplates are included with each model. A recirculation option for kitchens where ducting your hob to the exterior of the house isn't possible (some ducting may still be required to remove air from cupboard space). 3 speed centrifugal motor to match your cooking styles. Powerful extraction so cooking odours also go unnoticed. 2x LED Lights that can be operated independently. Dishwasher safe micromesh filters. Up to 850m<sup>3</sup> gross airflow per hour. 69dB noise rating at fan setting 1. \*Ducting kit sold separately.

## Features

All Product Details
